SKILLS

- **Frontend:** Next.js, TypeScript, React, JavaScript, Tailwind CSS, Zustand, HTML, CSS.
- **Performance & Tools:** Technical SEO, Core Web Vitals, Git, GitHub, Google Analytics.

SELECTED PROJECTS

Flik | Open-Source Multi-Tenant E-commerce Application (flikapp.xyz)

- Currently building a scalable, multi-tenant platform tailored for creators entirely solo using Next.js, TypeScript, Tailwind CSS, and Zustand.
- Designing robust state management systems and modern, high-performance UI components for a polished user experience.
- Developing the project as open-source to share clean code architecture and scalable frontend patterns with the community.

WORK EXPERIENCE

Welup Digital | Full Stack Developer | Sep 2021 - Present

(welupdigital.com)

- Built and optimised 10 dynamic client websites over three years.
- Focused on responsive design, hitting a 90% mobile usability score and improving mobile retention by 25%.
- Maintained client sites, which cut downtime incidents by 75% and sped up load times by up to 50%.

Zumera | Full Stack Developer | Aug 2025 - Apr 2026

(zumeraproperty.com)

- Built and managed the company job board and other critical internal applications.
- Developed and maintained the company's investment landing page.

Kyrus Recycling | Lead Developer | Sep 2024 - December 2024

- Managed a team of full-stack developers to build an app that pays users to recycle.
- Handled everything from project planning to deployment to keep the team on schedule.
- Launched the app in three months, bringing in over 500 sign-ups during the first month.

PromptEarn | Frontend Optimization Specialist | May 2024 - Oct 2024

- Fixed Google Core Web Vitals and PageSpeed issues, improving scores by an average of 35 points.
- These performance upgrades reduced bounce rates by 50% and boosted user engagement by over 60%.
- Improved search visibility, which helped grow monthly organic traffic by nearly 250% in six months.

EdoJobs | Web Development Trainer | Jan 2022 - Aug 2024

- Taught HTML, CSS, and React to over 50 students using real-world projects.
- Guided 90% of the students to build fully working websites and start their careers within three months.

EDUCATION

- **Edobits ICT Academy:** Diploma in Web Development (Sep 2021).
- **NABTEB:** Diploma in Computer Science (Apr 2022).
